1. The first part of the report is a general statement of the purpose and scope of the study. It is followed by a brief review of the literature on the subject.

2. The second part of the report is a description of the methods used in the study. This includes a discussion of the subjects, the experimental design, and the data collection procedures.

3. The third part of the report is a presentation of the results of the study. This includes a discussion of the findings and a comparison of the results with the previous literature.

4. The fourth part of the report is a discussion of the implications of the study. This includes a discussion of the limitations of the study and suggestions for future research.

5. The fifth part of the report is a conclusion. This includes a summary of the findings and a statement of the overall conclusions of the study.

6. The sixth part of the report is a list of references. This includes a list of all the sources cited in the report.

7. The seventh part of the report is an appendix. This includes a list of all the figures and tables included in the report.

8. The eighth part of the report is a list of footnotes. This includes a list of all the footnotes included in the report.

9. The ninth part of the report is a list of appendices. This includes a list of all the appendices included in the report.
